Weser bike path

Weser cycle path

From Hann. Münden to Bremen

Why you should choose the Weser and its river landscapes as a vacation destination for your cycling vacation? Perhaps because the Weser is one of the most important and also most beautiful German rivers and because the Weser Cycle Route is not without reason one of the most charming and popular routes for cycling vacations in Germany. The starting point of this cycle tour along the Weser is the half-timbered idyll of Hann. Münden - where the Weser emerges from the Werra and Fulda rivers. Already in this small town you will witness the impressive Weser Renaissance with carefully restored half-timbered houses - a visual delight.

Weser cycle path

From here you follow - mostly on the Weser cycle path - the meanders of the river through the Weserbergland, which holds many a treasure with its numerous wooded areas and small pretty towns. On your cycling vacation along the Weser and tributaries like the Aller, you will encounter medieval half-timbered towns like Höxter, Rinteln or Hameln. You will meet the Liar Baron Münchhausen in Bodenwerder and the Pied Piper town of Hameln will enchant you with its magnificent old town along the Weser Cycle Path. Nienburg also impresses on this cycling vacation with its old town, Verden with its cathedral and the city of Bremen with Roland, Town Musicians and Schnoorviertel.

All in all, a scenic and culturally highly interesting cycling tour through Weser river landscapes, which is easy and relaxing to cycle due to the consistently flat route on the [Weser Cycle Path](#).

Itinerary

Day 1 Individual arrival to Hann. Münden

Your personal tour information and handing over of the bicycles (if booked) is in the evening. A first tour by bicycle you can undertake to the old town of Hann. Münden. We recommend a little stroll through the medieval centre of Hann. Münden with the historic half timbered houses of the Weser Renaissance is very interesting. You will love the splendid old houses.

Day 2 Hann. Münden – Bad Karlshafen/Beverungen

Start of the bicycle tour on the Weser Rock, exactly where Werra and Fulda embrace each other. You cycle via Reinhardshagen and past the ancient Benedictine monastery Bursfelde to the baroque Huguenot's town Bad Karlshafen. The centre of Bad Karlshafen with its lovely reconstructed baroque houses presents an interesting diversion to the otherwise usual half-timbered houses. (approx. 46/55 km)

Day 3 Bad Karlshafen/Beverungen – Holzminden/Bodenwerder

Numerous highlights lie along today's route: the town of Fürstenberg with its porcelain manufactory and the old Hanseatic town of Höxter with more than 160 listed buildings, mostly half-timbered houses. Corvey Castle, the former imperial abbey near Höxter, offers a charming mix of art and culture. The small town of Beverungen has still preserved much of its historic face. Holzminden is known for the production of aromatic essences and perfume oils. One overnight stay in Holzminden/Bodenwerder. (approx. 37 - 55 km)

Day 4 Holzminden/Bodenwerder – Hameln/Rinteln

Many an idyllic village on the road invites you to stay. The little town Bodenwerder got certain fame for being the home of the so called "Lying Baron" of Münchhausen. The famous town of the "Rat Catcher from Hameln" has an intact old town with marvellous half-timbered houses and buildings in the typical style of the Weser Renaissance, dating back to the 16th and 17th century. (approx. 26 - 55 km)

Day 5**Hameln/Rinteln – Minden**

Near Porta Westfalica the river breaks through the Wiehen- and Weser mountain ranges and reaches the Northern German lowlands. The small town Rinteln, originating from the 13th century still has many buildings from the Weser Renaissance. Bad Oeynhausen has the world biggest carbonic acid thermal spring. Minden once was a flourishing trading centre but was destroyed in great parts during World War II. It was reconstructed in an exemplary way. (approx. 41 - 69 km)

Day 6**Minden – Nienburg**

After the days spent in the low mountain ranges today the idyllic, protected river meadows of the middle Weser dominate. You enjoy a far view over the flat countryside with meadows, black and white cows, a farm here and there and numerous wind mills. Characteristic for Nienburg is the strong fortification and the nice old town still is worth a visit. (approx. 63 km)

Day 7**Nienburg – Verden**

Today you discover the historic landscape of the middle Weser. The county Hoja are crossed on today's tour. Native villages and wide-spread farms are situated on the Weser-marsh land. After the day in nature the city of riders, Verden, forms the great end of the day. The town is dominated by the dome. The reputation as important rider and horse centre, adds to the significance of the town. (approx. 57 km)

Day 8**Verden – Bremen, departure**

Away from the traffic and through park-like areas you reach the centre of Bremen. The city has the second largest North-Sea port and a great importance for the sea trade. A sight seeing tour of the old town, as well as the Schnoorviertel, the monument of Roland and the monument of the "Bremer Musicians" are absolutely a must. Individual departure. (approx. 53 km)

The route

The Weser River Cycle Path follows mainly side roads with only scarce traffic as well as dedicated asphalted cycle paths and country roads. Only few differences in altitude have to be managed, therefore this cycle path is highly recommended for beginners or families with children.
