Enjoy Lithuania, Latvia and Estonia

An unforgettable cycle tour awaits you: Lithuania, Latvia and Estonia offer you everything you need for a wonderful holiday. The cultural highlights of the Baltic countries include their capitals Vilnius, Riga and Tallinn, whose city centres are UNESCO World Heritage Sites. The three countries promise a breathtaking variety of experiences. During your visit, you will discover fascinating differences in language, history and culture. Each capital city has its own lively charm and character.

In the Latvian capital of Riga, magnificent Art Nouveau buildings shine and transport you into a world of vibrant city life. The sights, such as the Blackheads’ House, the cathedral and St Peter’s Church, will captivate you, and the street cafés are true showplaces of style and elegance.

Vilnius, the Lithuanian capital, which shines in the late Baroque style, presents itself differently. The city carefully preserves its old monasteries and churches while opening itself up to influences from all over the world. The sights, such as the Gothic Corner and the venerable university, are enchanting photo motifs.

Tallinn, the capital of Estonia, is proud of its medieval heritage and showcases its imposing city walls, winding old town streets and defence towers. At the same time, life here is characterised by technological progress.

But it’s not just the cities, the breathtaking nature of the Baltic region also awaits you. The dunes of the Curonian Spit, the Gauja National Park and the island of Saaremaa are home to magnificent nature. And the Baltic Sea invites you to swim and stroll along the beach in places like the seaside resort of Jūrmala with its dream beaches.

tour character

An easy to moderately difficult tour. There are hardly any German-style cycle paths in the Baltic States. Most tours take place on routes with little traffic, but traffic is to be expected. You will meet the support bus, which bridges the transfer routes, several times a day and it is often possible for our guests to get a lift on request. At lunchtime, you have the opportunity to stop for lunch in a restaurant en route; or you can put together your own packed lunch for the journey.
