Weser bike path | Sportive

Weser cycle path | Variations

In 6 days from Hann. Münden to Bremen

Urban lifestyle, wide landscapes, beautiful river courses - and finally the sea! So far and free that everyday life falls away from you and a feeling of relaxation immediately sets in. The Weser Cycle Route, with its approx. 520 kilometres, is an ideal destination for active explorers. Our sporty route starts in Hann. Münden and leads to Bremen in six days.

Alternatively, you can extend the tour to Bremerhaven or Cuxhaven.

The sporty tour in brief

You start your journey at the source of the Weser in Hann. Münden, where the Fulda and Werra join at the Weserstein. Even the first stage offers several highlights over a distance of 83 kilometres. After a detour via the imposing Bursfelde Monastery, the delightful Bad Karlshafen and the charming little towns of Fürstenberg, Höxter and Beverungen are waiting to be explored by you. Day 3 has at least as much to offer: Past the magnificent Corvey Castle and the “Pied Piper Town” of Hamelin, the tour leads to Rinteln, where you should enjoy the regional culinary delights on the magnificent market square.

The tour continues to the Mittelweser region, where windmills meet monasteries and characteristic lowlands meet pristine moorland. Get to know the country and its people on the farms you pass on your journey. The region is agricultural, but in many places it is also wildly romantic and unspoilt. In Verden you can breathe city air again before the last and shortest stage takes you to Bremen.

Regional treasures along the route

City, country, river - the six-day tour is as varied as the region itself. The picturesque towns are bursting with art, culture and history. Around 700 half-timbered houses adorn the historic trading town of Hann. Münden. Stroll through the alleyways in Hameln, treat yourself to an asparagus dish in Nienburg and explore the Hanseatic city of Bremen at length. Here you will not only be tempted by the famous Town Musicians, but also the Schnoor and the UNESCO World Heritage Site around the market square and cathedral. Be sure to try Knipp and Labskaus in the many traditional and contemporary restaurants and the infamous “Sluk ut de Lamp” at Spitzen Gebel.

As for the land and the river, you will be enchanted by the extraordinary region. In some places, the clocks seem to have stopped. Take a deep breath, feel inside yourself and simply shake off the worries of everyday life. The picturesque floodplains, the characteristic marshlands and geest landscapes and the sheer endless expanse will cast a spell over you.

Itinerary

Day 1 Individual arrival to Hann. Münden

Your personal tour information and handing over of the bicycles (if booked) is in the evening. A first tour by bicycle you can undertake to the old town of Hann. Münden. We recommend a little stroll through the medieval centre of Hann. Münden with the historic half timbered houses of the Weser Renaissance is very interesting. You will love the splendid old houses.

Day 2 Hann. Münden – Holzminden

Start of the bicycle tour on the Weser Rock, exactly where Werra and Fulda embrace each other. You cycle via Reinhardshagen and past the ancient Benedictine monastery Bursfelde to the baroque Huguenot's town Bad Karlshafen. The centre of Bad Karlshafen with its lovely reconstructed baroque houses presents an interesting diversion to the otherwise usual half-timbered houses. A number of highlights can be encountered along the route: the town Fürstenberg with a renowned porcelain manufacture, the old hanseatic town Höxter with more than 160 mostly half timbered buildings under monuments-protection. The little town Beverungen retained a lot of its historical face. Holzminden is well known for the production of aroma-essences and perfume-oils. (approx. 82 km)

Day 3 Holzminden – Rinteln

Many an idyllic village on the road invites you to stay. The little town Bodenwerder got certain fame for being the home of the so called "Lying Baron" of Münchhausen. The famous town of the "Rat Catcher from Hameln" has an intact old town with marvellous half-timbered houses and buildings in the typical style of the Weser Renaissance, dating back to the 16th and 17th century. (approx. 84 km)

Day 4 Rinteln – Stolzenau

Near Porta Westfalica the river breaks through the Wiehen- and Weser mountain ranges and reaches the Northern German lowlands. The small town Rinteln, originating from the 13th century still has many buildings from the Weser Renaissance. Bad Oeynhausen has the world biggest carbonic acid thermal spring. Minden once was a flourishing trading centre but was destroyed in great parts during World War II. It was reconstructed in an exemplary way. After the days spent in the low mountain ranges today the idyllic, protected river meadows of the middle Weser dominate. You enjoy a far view over the flat countryside with meadows, black and white cows, a farm here and there and numerous wind mills. (approx. 80 km)

Day 5**Stolzenau – Verden**

Characteristic for Nienburg is the strong fortification and the nice old town still is worth a visit. Today you discover the historic landscape of the middle Weser. The county Hoja are crossed on today's tour. Native villages and wide-spread farms are situated on the Wesermarsh land. After the day in nature the city of riders, Verden, forms the great end of the day. The town is dominated by the dome. The reputation as important rider and horse centre, adds to the significance of the town. (approx. 81 km)

Day 6**Verden – Bremen, departure**

Away from the traffic and through park-like areas you reach the centre of Bremen. The city has the second largest North-Sea port and a great importance for the sea trade. A sight seeing tour of the old town, as well as the Schnoorviertel, the monument of Roland and the monument of the "Bremer Musicians" are absolutely a must. Individual departure. (approx. 53 km)

The route

The Weser River Cycle Path follows mainly side roads with only scarce traffic as well as dedicated asphalted cycle paths and country roads. Only few differences in altitude have to be managed, therefore this cycle path is highly recommended for beginners or families with children.
